Explanatory Notes

Methodology

The Rental Deposit Authority collects self reported data on Bond Lodgement Forms when a new bond is lodged. The data is then de-identified and passed on to the Tenants' Union of Tasmania for statistical analysis. Any properties with 6 or more bedrooms are not included in the rental statistics.

Issues

- There is no reporting of rents for tenancies without a bond or where the bond is illegally withheld.
- Self reporting may mean that data is incomplete or incorrect.
- In categories with small data sizes, statistics may be influenced by exogenous factors such as the housing quality and multiple late lodgements from previous periods, as well as multiple lodgements from aged care facilities and accommodation at educational institutions. Care is taken to ensure such data does not unduly skew median rents.
- Reported rent takes no consideration of the method used to decide the amount and may be based based on market, income or other considerations.

End Notes

1. Weighted Median Rent is calculated as 13.8% of the 1 bedroom median rent, 32.6% of 2 bedroom median rent, 43.9% of 3 bedroom median rent and 9.7% of 4/5 bedroom median rent. These percentages reflect the composition of Tasmanian rental properties at the 2011 ABS Census of Population and Housing. North West is the ABS Statistical Division of West and North West (formerly Mersey-Lyell) and is made up of the green shaded areas on the Map (page 1) and the table below. North is the Launceston and North East Statistical Division (formerly Northern) and is shaded yellow, while South combines the Hobart and South East Statistical Divisions (formerly Southern) and is shaded red.

Year Change is defined as the change between this quarter and the corresponding quarter in the previous year.

2. The 16 Areas are defined as:

Area	
Greater Burnie	Pt A of the Burnie ABS Statistical Local Area
Greater Devonport	Pt A of the Devonport ABS Statistical Local Area
Central Coast	Pt A of the Central Coast ABS Statistical Local Area
